

Text Reminder

Dear Parents and Students:

Receiving immediate notification of information can be a helpful method in maintaining effective communication regarding your child's education. Receiving a text from me will be a one-way communication with no identification revealed, which means that no student will be able to reply to a text received, nor will my number be identified in the received text. If you are interested in this option, please follow the instructions below. Please note that your child should only sign up for the course in which he/she is currently enrolled. In addition, by signing the permission slip below, you agree for you and your child to receive text reminders.

Mrs. Metcalf

Text Reminder Permission Slip

I agree to have my child _____ (student's name) and myself enrolled to receive immediate notification through text reminders.
