

Comic Books APA Report

For this last paper in the class, I'd like you to do some research on comic books and present it in a report following APA style for documentation. The content should cover at least the information listed below:

- Bayeux Tapestry
- William Hogarth
- *The Yellow Kid*
- Artist Rodolphe Töpffe
- *Katzenjammer Kids*
- Battle between Pulitzer and Hearst
- Brief commentary of the longest running American comic strips
- Most popular newspaper comic strips
- Difference between strips and gag panels
- Characteristics of the Sunday strip
- Identification and purpose of the Underground comic strips
- Purpose/Motive for comic strip writing
- Basic structure of comic strip writing
- An explanation for the use of satire in comic writing
- Outcault
- *Krazy Kat*
- Memes – how does this form connect to the same purpose as comics
-

Follow the APA format as you did for constructing research, i.e. running head, questions, subtitles, and so forth. You will need to add figures (be sure to add the correct information, such as the appropriate size acceptable for APA documentation and caption information. See Research and Documentation link to access the format). All figures should be text wrapped. In addition, include hyperlinks for ease in support of a discussion. Finally, for bonus points, include an original comic strip and a brief explanation of it.

Your paper will need to be peer reviewed. Information on the peer review will be discussed in class.
